WELCOME TO WEST BOHEMIA TOUR 2026

We are proud to present the third edition of the professional cycling race West Bohemia Tour, which will once again take place in the Plzeň Region in 2026.

Following a successful debut in 2024, the race attracted teams of international calibre. Among the starters were development squads of WorldTour and ProTeam outfits well-known from the Tour de France, including Lotto Dstny Development Team, Soudal – Quick-Step Devo Team, Uno-X Mobility Development Team, and Tudor Pro Cycling Team U23. The UCI 2.2U classification—reserved for the world's top under-23 riders—continues in 2026 to draw elite development teams and young talents from across the globe.

The four-day stage race will kick off with a prologue from Starý Plzeňec to the medieval Radyně Castle, followed by three road stages, each beginning and ending in the same host city: Stage 1 in Rokycany, Stage 2 in Klatovy, and the decisive final stage in Plzeň, where riders will roll out from the historic gates of the brewery.

The course has been carefully designed to showcase the natural beauty and cultural heritage of the West Bohemia region. It connects historic towns and picturesque landscapes while offering a challenging and diverse terrain that will test the riders' full range of skills—from climbing to technical handling and team strategy.

The West Bohemia Tour is not only a high-level sporting event, but also a cultural celebration and a platform to highlight the traditions and identity of Western Bohemia. Accompanying programs in the host cities will provide entertainment for locals and visitors alike, and offer valuable opportunities for partner activations and brand visibility.

We warmly invite everyone to be part of this prestigious event that merges world-class cycling with the unique atmosphere of the Czech Republic's western heartland!

9.6 Team classification

The team classification in stage shall be calculated on the basis of the sum of the three best individual times from each team.

In the event of a tie following criteria shall be applied:

- 1. lower sum of the places acquired by their three best times on the stage;
- 2. better placing of their best rider on the stage classification.

The team general classification shall be calculated on the basis of the sum of the three best individual times from each team in each stage ridden. In the event of a draw, the following criteria shall be applied:

- 1. higher number of first places in the daily team classification;
- 2. higher number of second places in the daily team classification;
- 3. etc.

If there is still a draw, the teams will be separated by the placing of their best rider in the general individual classification on time.

Any team reduced to fewer than three riders will be eliminated from the general team classification.

9.7 The priority of the distinctive jerseys

- 1. Leader of the general classification on time YELLOW jersey
- 2. Leader of the points classification GREEN jersey

STAGE 3

STAGE 3: 150,8 KM / 10:00 / 2.347 M

The chart displays a yellow area representing the terrain profile. The x-axis is marked with four points: 3 KM, 315 M; 2 KM, 322 M; 372 M; and 1 KM, 371 M. The y-axis has labels at 300 M, 325 M, and 350 M. The profile shows a relatively flat area at 300 M for the first 2 km, followed by a rise to a peak of 372 M, and then a slight decline to 371 M at the 1 km mark.
